RECEIVED
MAY 31 2017
DIRECTOR'S OFFICE
ID DEPT. OF AGRICULTURE

Dear Mr. Oakly

I pulled your name and address from a notice regarding the Japanese Yew and a comment and meeting about the Japanese Yew.

I fully support, desire, and request the Japanese Yew (or any other yew with a toxicity to animals) no longer be sold in Idaho. Also if there is any way for existing plants to be removed that would be even better. Where this plant is so toxic to grazing animals, it has no business being sold or planted in the state.

Thank you

Barbara A Chaffin
