August 30, 2014

Boise – The week of August 24th, raw goat milk was produced, sold and distributed by Treasured Sunrise Acres in Parma.

Test results indicate the milk was positive for the pathogen, cryptosporidium. The Idaho State Department of Agriculture (ISDA) has issued a hold order to Treasured Sunrise Acres, halting all raw milk sales until further notice. If you purchased raw goat or cow milk from Treasured Sunrise Acres, or any of its raw milk retail outlets either on or after August 24th, officials from Treasured Sunrise Acres and ISDA ask that you discontinue consumption and discard the product.
