DUE TO AQUATIC TOXICITY, AVIAN HAZARD, ACUTE ORAL TOXICITY AND EYE CORROSIVITY HAZARD
For retail sale to and use only by Certified Applicators or persons under their direct supervision, and only for those uses covered by the Certified Applicator's certification.

SUPPLEMENTAL LABELING FOR SPECIAL LOCAL NEED IN IDAHO FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF IDAHO

Supracide™ 2E

EPA REG. NO. 10163-236 / EPA SLN NO. ID-000005

For control of certain insects in alfalfa grown for seed

ACTIVE INGREDIENT:

Methidathion: O,O-dimethyl phosphorodithioate, S-ester with 4-(mercaptomethyl)-2-methoxy- Δ^2 -1,3,4-thiadiazolin-5-one..... 24.4%

OTHER INGREDIENTS 75.6%

TOTAL 100.0%

Supracide 2E contains 2 lbs. active ingredient per gallon.

Contains Petroleum Distillate

KEEP OUT OF REACH OF CHILDREN

PELIGRO

- Follow all applicable directions, restrictions, and precautions, including statements pertaining to the Worker Protection Standards, on the EPA-registered Supracide 2E label.
- This label must be in the possession of the user at the time of pesticide application.
- It is a violation of federal law to use this product in a manner inconsistent with its labeling.

General Information

Alfalfa (Grown for Seed)

Apply at the rates listed below in a minimum of 10 gals. of water per acre with ground equipment or a minimum of 2 gals. of water per acre by air. For alfalfa weevil and Egyptian alfalfa weevil control, make foliar applications to standing alfalfa when 20 - 30% of the growing tips show insect feeding damage. For other insects listed, apply when insects first appear. Use the lower rate for light infestations and the higher rate for moderate to heavy infestations and follow state IPM guidelines. Do not apply within 28 days of harvest.

Note: To avoid injury to pollinating insects, do not apply during bloom. Do not apply or allow to drift to blooming crops or weeds when bees are actively foraging in the treatment area.

Insects Controlled	Rates Per Acre
Alfalfa Weevil	2-4 Pints
Aphids	2-4 Pints
Egyptian alfalfa weevil	2-4 Pints
Lygus	2-4 Pints
Leafhoppers	2-4 Pints

Precautions: Do not feed or graze current year's alfalfa forage or fodder. Do not cut current year's alfalfa for hay or forage. Seeds from treated fields may not be used for sprouts. No portion of the treated field, including seed, seed screenings, hay, forage, or stubble may be used for human or animal consumption.

Producers of alfalfa seed who use this product, or cause the product to be used on fields they operate, are required to inform, in writing, conditioners receiving seed produced on fields treated with this product. A copy of the labeling is required to be provided to the conditioner by the producer. Processed seed must be labeled "Not for human or animal consumption" at the processing plant. The processor must dispose of all seed screenings in such a way that they cannot be distributed or used for food or feed.

Chemigation: Do not apply this product through any type of irrigation system.

SEED CONDITIONER NOTIFICATION

STATEMENT TO BE COMPLETED UPON DELIVERY OF
ALFALFA (SEED) FROM FIELDS TREATED WITH SUPRACIDE 2E
EPA Reg. No. 10163-236

GROWER STATEMENT

I hereby declare that alfalfa seed from field # _____ was treated with Supracide 2E under restricted pesticide materials permit # _____. The variety _____ that was planted in this field was grown under contract for _____ or open production (whichever is applicable) and was treated during the growing season with Supracide 2E.

Signed _____ Date _____

CONDITIONER STATEMENT

I hereby acknowledge the alfalfa seed described above was received by me on (date) _____ and the following requirements and restrictions will be observed and followed:

- (1) All alfalfa seed from fields treated with Supracide 2E, conditioned in this state shall bear a tag which forbids use of the seed for food, feed or oil purposes.
- (2) All seed screenings from fields treated with Supracide 2E, conditioned in this state will be disposed of in one of the following ways:
 1. Dispersal at a controlled dump site.
 2. Incineration.
 3. Use by a cogeneration facility.
 4. Use as a soil amendment.

Any other method approved of in writing by the County Agricultural Commissioner.
