## IDAHO STATE DEPARTMENT OF AGRICULTURE'S PESTICIDE DISPOSAL PROGRAM

*Collections scheduled for southwestern Idaho are safe, legal and free*

BOISE, Idaho – Southwestern and northern Idaho agricultural producers, dealers, applicators and homeowners who are storing unusable pesticides will have a safe, legal and **free** opportunity to dispose of them this May when the Idaho State Department of Agriculture conducts pesticide disposal collections in Nampa, Weiser, Lewiston and Coeur d'Alene, Idaho.

Participation is free for the first 1,000 pounds of unusable pesticides per participant. Anyone with unusable herbicides, insecticides, fungicides and rodenticides should bring them to the closest collection site between the hours of 9 a.m. and 1 p.m. on the date and location listed below (*sorry no fertilizer, micronutrients, paint, solvents or motor oil can be accepted*).

"These collections provide a mechanism for disposing of pesticides in an environmentally safe and sound manner," said Victor Mason II, manager of the department's pesticide disposal and container recycling programs.

**Since 1993, the Idaho State Department of Agriculture has safely disposed of over 1.3 million pounds of unusable pesticides.** Pesticides become unusable for many reasons, including loss of

potency, exposure to temperature extremes, cancellation or suspension by state or federal authorities, or growers' decisions to change their cropping rotations or practices.
