**DIRECTIONS FOR USE**

---

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Follow all applicable directions, restrictions, and precautions including statements pertaining to the Worker Protection Standard, on the EPA-registered label.

This label must be in the possession of the user at the time of pesticide application.

## **Alfalfa Grown For Seed**

Apply Agri-Mek SC when spider mites first appear. **Do not** apply more than 7 fluid ounces or more than two (2) applications of Agri-Mek SC per acre in any growing season. **Do not** apply a second application within 21 days of the last treatment.

**Ground application:** Apply 1.75-3.5 fluid ounces of product (0.01 - 0.02 pounds of active ingredient) per acre by ground application in a minimum of 20 gallons of water per acre.

**Aerial application:** Apply 2.5-3.5 fluid ounces of product (0.014 - 0.02 pounds of active ingredient) per acre by aerial application in a minimum of 10 gallons of water per acre.

**Notes:** (1) Alfalfa seed from treated fields may not be used for growing sprouts for humans or animal consumption. (2) **DO NOT** feed or graze alfalfa forage or fodder. **DO NOT** cut alfalfa for hay or forage. (3) Producers of alfalfa seed who use this product, or cause the product to be used on fields they operate, are required to inform, in writing, conditioners receiving seed produced on fields treated with this product. A copy of this labeling is required to be provided to the conditioner by the producer. Processed seed must be labeled "Not for human or animal consumption" at the processing plant. The processor must dispose of all seed screenings in such a way that they cannot be distributed or used for food or feed.

**Precautions for bees:** This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees while bees are foraging in/or adjacent to the treatment area. Apply in the evening after bees have stopped foraging or in early morning before bees begin foraging.
